fall

CLUBS

Saint Jude students will have the opportunity to participate in two fall clubs. Check out separate flyers that accompany this week's newsletter for additional details and registration information. Chess Scholars Chess Club which is open to students in grades K - Grade 8 and Let's Build It Engineering Club for students in Grades 1 - 6 are two offerings which give students great extra-curricular opportunities for fun and learning.

**WALK
4
ALZHEIMER'S**

We are pleased to report that Saint Jude School raised over \$900 last week in support of Alzheimer's research. The students rallied behind 8th grader, Molly Megal, who spearheaded this initiative in honor of her father who died five years ago from this devastating disease.

Molly and her friends were ready to put forth time and energy to do their parts to put an end to Alzheimer's.

Also participating in Sunday's Walk to End Alzheimer's was 5th grader, Jacob Ehrke, who did so in memory of his Grandpa Laue.
